

Have a look here: <https://teachcomputing.org/i-belong>

To achieve the desired outcomes, we are encouraging every school to provide an event to encourage year 8 girls to see themselves able and inspired to take GCSE computer science. We are excited to announce that we are running an event at **Bletchley park** on 27th Sept 2024 for year 8 girls to help you achieve this. Places are likely to book very quickly so please take a look today. Find out more [HERE](#).

If your school is needing to upskill the subject knowledge of non-computing teachers to be able to teach computing next year, please email us for support teachcomputing@scd.herts.sch.uk

We can help your teachers by providing subject knowledge CPD either face-to-face or visit our website for all the remote courses available. <https://hubs.scd.herts.sch.uk/>

We have partnered with OTSA to run some remote twilight computing courses for Primary and Secondary teachers. Please take a look at their website here: <https://www.otsa.org.uk/continuing-professional-development>

See our website for all our courses. hubs.scd.herts.sch.uk

We hope that you all have a fantastic and safe summer holiday.

We look forward to working with you next year.
